- Playwright
- Figma
- E-Commerce Testing
- Medical Software
- HTML/CSS

Azhalika Bakshtai

Manual QA Engineer

About Me

Detail-oriented Manual QA Engineer with hands-on experience in testing web applications, e-commerce platforms (Shopware), and B2B solutions. Proficient in creating comprehensive test documentation, executing functional/regression testing, and collaborating with development teams in Agile environments. Passionate about delivering high-quality software and continuously expanding testing expertise. Seeking a remote QA position to contribute skills and grow professionally.

Professional Experience

QA Engineer

Gronard GmbH

January 2026 - March 2026 (3 months)

- ✓ Conducted manual testing of a new e-commerce platform version built on Shopware from scratch
- ✓ Performed functional testing of core e-commerce features: product catalog, shopping cart, checkout process, and payment integrations
- ✓ Tested B2B admin panel for corporate clients: company registration, order management, and user dashboards
- ✓ Conducted responsive testing of the mobile website version: verified layout, navigation, and forms across different screen resolutions
- ✓ Created test cases and checklists for regression testing of new features
- ✓ Documented bugs with detailed steps to reproduce, screenshots, and expected vs actual results
- ✓ Tested third-party integrations: contact forms, calculators, and data export functionality
- ✓ Collaborated with developers and product managers to clarify requirements and prioritize bugs
- ✓ Participated in Agile/Scrum ceremonies and sprint planning

QA Engineer Intern

NoDaNorm

October 2025 - January 2026 (4 months)

- ✓ Tested documentation: analyzed requirements, checked completeness of technical specifications, identified contradictions
- ✓ Developed and maintained test documentation: test cases, checklists, bug reports
- ✓ Estimated task complexity and participated in sprint planning sessions
- ✓ Conducted risk assessment for system modules (functionality, security)
- ✓ Collaborated with development team: discussed bugs, clarified requirements

Education

Polotsk State University

Software Engineer
Bachelor's Degree
2014 - 2018

Certifications

Quality Assurance for Beginners

Andersen Lab, 2025

- ✓ Performed regression testing after each system update
- ✓ Maintained project knowledge base on Wiki: documented processes, test plans, known issues
- ✓ Prepared weekly testing status reports for management
- ✓ Verified documentation compliance with medical software standards
- ✓ Gained hands-on experience with test management tools and bug tracking systems

Software Engineer

State Educational Institution Gymnasium No. 5, Vitebsk

September 2020 - May 2021 (9 months)

- ✓ Administered student database: data entry, updates, and validation
- ✓ Generated reports and data queries (filtering, grouping, exporting)
- ✓ Provided technical support to users: workstation setup, peripheral device configuration
- ✓ Diagnosed and resolved basic technical issues (software, network, hardware)
- ✓ Prepared technical and administrative documentation for management
- ✓ Consulted teachers on software and equipment usage
- ✓ Developed problem-solving and communication skills applicable to QA role

IT Instructor / Lecturer of Information Technologies

Vitebsk State Technical College

August 2018 - June 2020 (1 year 11 months)

- ✓ Taught technical disciplines with focus on QA-relevant skills: SQL, web technologies (HTML/CSS), operating systems, and computer networks
- ✓ Developed educational materials: lesson plans, lab assignments, and test tasks - building strong technical documentation skills
- ✓ Evaluated student practical work: reviewed SQL queries, code logic, and technical solutions - honing attention to detail and error detection
- ✓ Consulted students on debugging and error resolution - developing problem-solving and communication skills
- ✓ Maintained academic reporting in electronic systems - experience with structured data and documentation workflows
